method, that involves the conquest and subjugation of the peoples. Europe, remembering how many ladies, Captain Hobson has killed, will take this challenge respectfully; but, as the young hero, extremely notes, it must be backed by ships. You cannot establish the Monroe Doctrine handlessly in Asia without a navy superior to all other navies. Britain maintains a considerable naval power; but Captain Hobson sees in this merely a stepping-stone for American supremacy. Indeed, the proportions would not be strained if the Navy of the United States equalled the combined navies of the earth. Nothing less can cope with the responsibilities to which Americans are beckoned by the 'finger of fate' and the 'will of God.' For the commercial destinies of China play but a small part in this sublime ambition. The whole human race is to be taken under the tutelage of Uncle Sam. 'Being the only fundamentally peaceful people of the world, we are constituted the advocates and champions of peace for the world.' When it comes to slaughter, America can boast the biggest heart, though Captain Hobson impresses upon us that the maximum of fighting efficiency was attained for the only time in history when the Spaniards were defeated at Manila without loss to the victor. But having achieved the highest conceivable glory in war, the only fundamentally peaceful people intend to keep all the nations in concord. War that would injure Britain, Germany, France, would injure American markets. 'An injury to any part of the human race would be an injury to us and the whole race.' Black and yellow peoples must be forcibly befriended, as, for instance, the negro is befriended in the Southern States, against the tyranny of white races with imperfect moral development. How secure this beneficent and save by that naval dominance which will enable the United States to 'dictate peace to the world.' So Captain Hobson entreasts 'all earnest men and women, who wish for the reign of peace and goodwill upon earth,' to labour for the world-wide dominion of his country as 'the bulwark of human liberty, the agent of peace, the instrument of brotherly love.'

After this demonstration of sea-power, which, as Captain Hobson says, does not strain proportions or overstate the case, Captain Mahan is in some danger of eclipse. He may have a vision of his young disciple patrolling the universe with an American ironclad, waving Russia out of Manchuria, and the monarchical methods of the French Republic out of Madagascar. British power in India should have a short shrift when Captain Hobson has delivered a few short addresses on 'sacred principles' from the prow of a United States cutter in the Ganges. He has plenty of time. The American Navy, if the earnest men and women will co-operate, should be ready for universal war by 1930, when Captain Hobson will be in the prime of life. He shows that, by creating this Navy, the American taxpayer will remain unconscious of even the slightest burden, and will enjoy the 'wholesome tonic' of administering the liberties of the world. 'Breathing the purer air of such an exalted station would quicken the pulse of the nation, and send a brighter, stronger current to eliminate morbid germs from all the tissues of the body politic, offsetting tendencies towards commercialism and materialism.' Perhaps Captain Hobson will take Tammany and the 'Trusts' for a sea-voyage, and maroon them.

Siamese Currency.
The Bangkok Times of November 28 says that the banks were doing no business. A meeting of the rice-millers' association was called. The Bureau Co. shut down their rice mills, and Messrs Markwald & Co. The Banks submitted the following claims to the Government:—
Hongkong and Shanghai Bank, £150,000.
The Chartered Bank, £100,000.
The Banque de l'Indo-Chine, £1,500,000.
The firms are asking the Banks if they are to be held to contracts under. Nothing, however, is likely to be settled for the next two or three days.

IT WILL NOT DO

To fool with a bad cold. No one can tell what the end will be. Pneumonia, catarrh, chronic bronchitis and consumption invariably result from a neglected cold. The publication of this issue commences at 4.40 p.m.

The China Mail.

HONGKONG, FRIDAY, DECEMBER 12, 1902.

LOCAL AND GENERAL.

The 'City of Peking.'

The Pacific Mail steamer *City of Peking* went on her trial trip at Kobe on the 4th inst., after receiving her new tail shaft.

The trial was a most successful one in every way. Everything worked smoothly, and the ship made a speed of 15 knots. The work was carried out by the Kawasaki Dock Co. The *City of Peking* is the largest vessel yet docked in Kobe.

Admiral Grenfell's Squadron.

H.M.S. *Albion*, *Cressy* and *Blenheim* arrived at Singapore on the 5th inst., having made the run down from Hongkong in less than five days. The *Albion* was expected to go on to Bangkok, and then to rejoin the two others at Singapore. It is supposed that this little squadron has been sent south as a counterpoise to the Russian squadron now on its way East.

Rugby Football.

To-morrow afternoon, on the Happy Valley, the Hongkong Football Club (1st XV.) will play H.M.S. *Glory*, under Rugby rules. Kick-off at 4 p.m. The Club will play in striped jerseys. GOD SAVE THE KING.

Sir T. Lipton—and the King.

The intercourse which exists between His Majesty King Edward and the tea-merchant has enabled Sir Thomas Lipton to approach the King on a matter that requires to be pushed forward (says the *Times of Ceylon*). The following telegram from New York to the London papers, received on the 4th ult., will show what success he is alleged to have achieved:—Sir Thomas Lipton has written a letter to General Corbin, in which he says he has had an interview with King Edward, who indicated his intention to appoint a Special Commissioner to represent Great Britain in connection with the St. Louis Exposition in 1904, and informed Sir Thomas that the Government proposed to take other steps to interest people in the Exposition. Sir Thomas Lipton adds that he represented to the King that the cordial relations between the two countries would be strengthened if the United Kingdom were well represented at the Exposition. The matter is now the subject of correspondence between the British Foreign Office and Mr. Choate, the United States Ambassador in London.

A Weihaiwei Boom.

That there is gold in the hills round Weihaiwei is well known (says the *N. C. Daily News*), and for years mining has been carried on there by Chinese with their primitive appliances. Quartz mining has ceased since the Japanese captured Weihaiwei, and though several British syndicates started three years ago, they could make no progress as long as Weihaiwei was under military rule. When the agents at home went to the Foreign Office for permission, they were referred to the War Office; the War Office referred them to the Admiralty; here the officials were just as adept in the great art of 'How not to do it,' and referred them to the Colonial Office; and it was not until Mr. Stewart Lockhart was firmly seated as Commissioner that anything could be done. He has given the mine owners every help and encouragement. He is very anxious that serious mining operations should be started without further loss of time, and mining regulations based on those working in other British colonies have been drawn up. The two principal syndicates owning mining areas, which there is every reason to believe are very rich, have agreed to amalgamate their properties, and a company is in course of formation to acquire the combined interests. The directors of this proposed company have sent Mr. Duff, who is well known in connection with Korean mining, to make an independent inspection of and report on the respective properties, and his report is awaited with great interest. He was unfortunately a passenger on the steamer 'Ensigne Henri' when she was wrecked, and his instruments and personal effects suffered considerably from immersion. It will be a great thing for Weihaiwei as well as for many Shanghai residents if his report turns out to be as favourable as it is expected to be.

WHAT IS A COUGH?

A spasmodic effort to expel the mucus from the bronchial tubes. A cold causes a more abundant secretion of mucus, and when the lungs and bronchial tubes are inflamed, they are extremely sensitive to the irritation. Unless care is taken, the cold may result in pneumonia, which is swift and deadly. If the cold is a lingering one, the more likely it is to result in consumption may set in. Do not neglect a cold or cough. Take Chamberlain's Cough Remedy. It always cures and cures quickly. For sale by All Dealers; WATKINS Ltd., General Agents.

LOCAL AND GENERAL.

Notes by the Way.

Li Yung-ik has been degraded at Seoul, and all the Ministers have resigned, but nobody knows why.

It is authoritatively declared in Moscow that Port Arthur will henceforward be purely a fortress.

It will cost Sir T. Lipton upwards of £80,000 sterling to compete for the America Cup.

A live torpedo, lost by the destroyer *Yukiri*, is wandering somewhere in the neighbourhood of Inafukuiki.

Two new steamers are being built in Japan for the N. Y. K. These steamers are to be put on the North China run.

Firewood is being shipped in large quantities from Singapore to Newcastle. This looks like carrying coals to Newcastle.

The Siamese royal yacht arrived at Nagasaki on the 3rd inst. on her way to Yokohama to meet the Crown Prince of Siam.

It was at a wild duck hunting party on the Imperial estate of Niihama, Chiba prefecture, that the death of Colonel Buck occurred.

Four natives in Bombay have been poisoned by taking strychnia served by mistake by a servant in a local dispensary. Two died in a few hours.

The new Nippon Yusen Kaisha Australian liner, *Niko Maru* (6000 tons) will be launched from the Mitsui Bishi yard at Nagasaki about June next.

Marquis Ito has not yet come to an understanding with the Premier Count Katsuma, but the Opposition in the Japanese Diet does not want a dissolution.

The steamer *Wilhelmsen*, reported ashore on the Batu Berhentis Shoal near Singapore, got off about noon on 5th inst., after discharging 200 tons of cargo.

Commander Halsey, who served with the *Powder Mill* during the Siege of Ladysmith, is the Commander of the *Good Hope*, now on her way to South Africa with Mr. Chamberlain.

A Russian was sentenced to seven years' hard labour in the Japanese Court at Nagasaki on the 3rd inst. for drugging a friend at Unzen last August and stealing 500 roubles from him.

High Bail.

Mr. F. A. Hazland has fixed the bail of Tam Kit Kee and Im Chong, contractors, who were committed for trial by the verdict of the jury that investigated the collapse of Nos. 10 and 12 Second Street, at \$10,000.

No Delay.

There was no delay in starting the Ladies' Prize race at the Regatta, yesterday. As a matter of fact the boats were got away 2 minutes before time, viz. 3.28 p.m. instead of 3.30 p.m. The announcement '2.30 p.m.' which appeared in the programme, was a mistake.

Another Inquest.

The fourth of the present series of inquests into the cause of the collapse of houses during the typhoons in August was opened by Mr. F. A. Hazland and a jury at the Magistracy, this afternoon. It concerns the death of thirteen Chinese who were buried in the debris of No. 45 Poyea East, which fell in on the night of Aug. 2. Mr. Bowley, Crown Solicitor, appeared for the Crown; Mr. C. D. Wilkinson (Messrs. Wilkinson and Grist) represented the contractor; and Mr. Looker watched the proceedings on behalf of the architect. Evidence was gone into.

'The Wrong Mr. Wright.'

To-night's performance of *Sherlock Holmes* by the Janet Waldorf Company will be the last. On Saturday evening, *The Wrong Mr. Wright* will be staged. The title of this comedy alone suggests humorous humour; the fact that its author is Broadhurst confirms the suspicion. It belongs to that literary school of comedy which never fails to attract, because it provides hearty and healthy amusement. It is of the same family as *What happened to Jones* and *Why Smith left Home*, and it is doubtful which of the three is funniest. Miss Waldorf's company will give Hongkong audiences an opportunity to judge for themselves. A relief from the cares of life will doubtless be found by witnessing the Broadhurst comedy.

Escape of Convicts.

The *Manila Times* of the 1st inst. says:—Shortly before noon, the U. S. C. T. *Porpoise* arrived in the bay from Zamboanga, Mindanao, and docked at the foot of Calle Principe. She had on board three military convicts who were en route, under guard, to Malaki Penal Island to serve long sentences given to them by a general court-martial for breaking into and robbing a safe in the commissary depot in Zamboanga. They were Privates Maher, McDonnell and Charles Merrill, all formerly of the 15th Cavalry. The guard over them consisted of Sergeant Ancoos and three privates of the 15th Cavalry. The sergeant, leaving the privates to look after the prisoners, started up town to arrange for the transportation to the prison island, when the report of rifle shots caused him to return in haste to the transport. There he discovered that the three convicts had broken arrest. Merrill was almost immediately captured. Maher and McDonnell had not been re-arrested at the time of going to press. The former was handcuffed when he got away and McDonnell succeeded in slipping his off before he made the dash for liberty. All of the river and Harbor Police and the force at the Analogue station are after the two convicts yet at liberty, and it is believed they will soon be recaptured.—Subsequently, M'Donnell was arrested.

Cholera in the Philippines.

Epidemics of Cholera are occurring throughout most of the Philippine Islands. Down to the 2nd inst., there had been 115,434 recorded cases and 73,479 deaths. Many cases must have gone unrecorded.

Proposed Shanghai Lottery.

On the 7th inst., the Rev. C. E. Darwent preached in Union Church, Shanghai, on the recent proposal of the Municipal Council to grant a monopoly to a Chinese to run a public lottery in the Settlement for the sum of \$150,000 a year. Mr. Darwent's sermon was a strong denunciation of all lotteries.

Rice Trade in the Philippines.

The price of rice has been broken (says the *Manila Times* of the 2nd inst.), and sales have been made as low as \$6.20 per picul. The fall in price is regarded as a direct result of the action of the Philippine Government in making extensive purchases to protect its people not only from famine but from exorbitant prices for a food that is staple with them. The first break in the price occurred at Saigon, where it was suddenly discovered that the visible supply greatly exceeded the estimates made two months ago.

The Cost of Soldiers.

In the House of Commons on the 8th ult., Sir E. Villiers asked the Secretary of State for War if he could state the approximate average annual cost of an Infantry soldier of the Line, a Cavalry soldier, a Militiaman, an Imperial Yeoman, and a Volunteer. Mr. Brodbeck:—The average annual cost of a private of each of the arms mentioned is approximately as follows:—Infantry of the Line, £52s. 6d.; Cavalry of the Line, £58s. 10s. 9d.; Militia (Infantry), £18s. 12s. 6d.; Imperial Yeomanry, £19s. 13s. 6d.; Volunteers, £6. The cost of Infantry and Cavalry respectively, after April 1, 1904, when the increased pay takes effect, will be £59s. 1d. and £65s. 16s. 6d.

The New Transport Medal.

His Majesty has been pleased to approve of the establishment of a special medal to be awarded by the Lords Commissioners of Admiralty, in accordance with strictly-defined rules, to the officers of the Mercantile Marine serving in chartered troop transports, in recognition of the extreme efficiency with which the troping service has been performed in the recent South African and China Wars. It is His Majesty's intention that the Transport Medal shall be granted in future wars to the officers of the Mercantile Marine serving in Troop Transports similarly chartered whenever a War Medal may have been granted to the troops engaged, but not otherwise. The Medal and Ribbon will denote the particular war in connection with which the service has been performed.
